Whereas, it is a proven fact that performance of every department depends upon its employees and if merit is ignored in the process of postings than the said department fails to achieve its set targets and standards which area necessary for its performance. However, it is often seen that nepotism political influence and other sources are used during departmental postings due to which performance of all provincial departments is being affected and creating disappointment among the people. Now the federal interior department, education and health departments are holding their tests and interviews through NTS which is a positive step and highly appreciable. This House therefore calls upon the provincial government that all tests and interviews against the vacant posts of provincial departments my be conducted like department of interior, which will not only help overcome the culture of unfair means, but will also promote merit, beside providing with job opportunities to the talented and educated people of the province. Moreover, NTS admission fee may also be brought at par with other provinces.
5. **RESOLUTION NO. 53 BY SAMINA KHAN, MEMBER PROVINCIAL ASSEMBLY.**

Whereas, it is a glaring fact that Quetta-Chaman road is connected to Quetta airport but in the absence of a Chowk (Round about) at this place there is always a possibility of major accidents and loss of life on this road, while a number of accidents have already taken place and loss of precious lives has occurred in the past. Besides, unnecessary cuts have also been made on the said road on different places.

This House therefore calls upon the provincial government to approach the federal government that National Highway Authority may be made bound to construct a Round About at the said point and besides removing unnecessary cuts presence of traffic police may also be ensured so as traffic accidents on this road may be prevented.
