Whereas, keeping in view the true spirit and importance of hard work and labour it is indispensable to protect rights of of labourers at every level. At present Pakistan houses 8.52 million Home Based Workers of that include 65 percent female and 4 percent male workers. These workers play prominent role in economic production of the country. In international level football matches 80 percent footballs items are prepared in Pakistan from which Pakistan earns \$50 million annually. Majority of home based women workers work on piece rate basis who do works like embroidery, carpet making, wood work, bangle making, cleaning of dates and packing of different items. Majority of home based workers belong to poor and low paid income families who work 10 to 12 hours daily earning not more than 500 to 600 rupees only which is nothing against their labour and hard work.
